

Many thanks for downloading my **‘On Demand Internet Marketing Brushes’** sample set.

This particular set that you've downloaded is only a handful of samples which have been taken from the original set. They've been released purely for testing purposes so you can try them out for yourself to see what you think of them. Because they're only a sample set, there is a usage restriction – They are strictly only to be used for personal use.

The full set contains over 180 brushes and comes with 18 complimentary styles as well to enhance most of the brushes even more. If you decide to purchase the full set, there are NO usage restrictions whatsoever and can either be used for personal or commercial purposes.

See the screen grab on the next page...

Over the years I've been creating sales pages for all different kinds of products and even though none of these products were related, one thing all the sales pages shared was the need for nice sales graphics.

Initially I created this brush & styles set for my own use because I wanted to speed up the whole process of my sales page graphic creations and after some considerable testing and seeing how much quicker the results was, I just had to share them with others!

To find out full details about this brush & styles set and to see some live examples, please head over to:
